No Wind Signals currently in effect

TROPICAL CYCLONE BULLETIN NO. 4

Tropical Storm QUEENIE (BANYAN)

Issued at 5:00 AM, 01 November 2022

Valid for broadcast until the next bulletin at 11:00 AM today

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall</p> <ul style="list-style-type: none">• <i>Tonight through tomorrow:</i> Moderate to heavy rains possible over Surigao del Norte, Surigao del Sur, and Dinagat Islands. Light to moderate with at times heavy rains possible over Eastern Visayas, Davao Oriental, and the rest of Caraga Region.• <i>Thursday:</i> Light to moderate with at times heavy rains possible over Caraga, Davao Region, Northern Mindanao, Eastern Visayas, Central Visayas, and Bicol Region.• Under these conditions, flooding and rain-induced landslides are possible, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities with significant antecedent rainfall. <p>Severe Winds</p> <p>Despite the weakening scenario within the forecast period, the hoisting of Tropical Cyclone Wind Signals is not ruled out over the eastern portion of Caraga and in some areas in Eastern Visayas today. Per latest track and intensity forecast, the highest wind signal that will likely be hoisted is Wind Signal No. 1.</p>
HAZARDS AFFECTING COASTAL WATERS
<p>In the next 24 hours, under the influence of QUEENIE, moderate to rough seas (1.5 to 3.0 m) may prevail over the eastern seaboard of Mindanao. These conditions may be risky for those using small seacrafts. Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.</p>
TRACK AND INTENSITY OUTLOOK
<p>Tropical Storm QUEENIE is forecast to track generally west northwestward to northwestward today before turning north northwestward tomorrow while over the sea east of Caraga-Davao Region area. It may weaken into a tropical depression today due to increasingly unfavorable conditions. Further weakening into a low pressure area is likely by Thursday, possibly earlier.</p>

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
