

## TROPICAL CYCLONE BULLETIN NO. 15

### Super Typhoon KARDING (NORU)

Issued at 8:00 AM, 25 September 2022

Valid for broadcast until the next bulletin at 11:00 AM today

#### "KARDING" REACHES SUPER TYPHOON CATEGORY AFTER A PERIOD OF EXPLOSIVE INTENSIFICATION

##### Location of Center (7:00 AM)

The center of the eye of Super Typhoon KARDING was estimated based on all available data including those from Daet and Baler Doppler Weather Radars at **230 km East of Infanta, Quezon (15.0°N, 123.8°E)**

##### Intensity

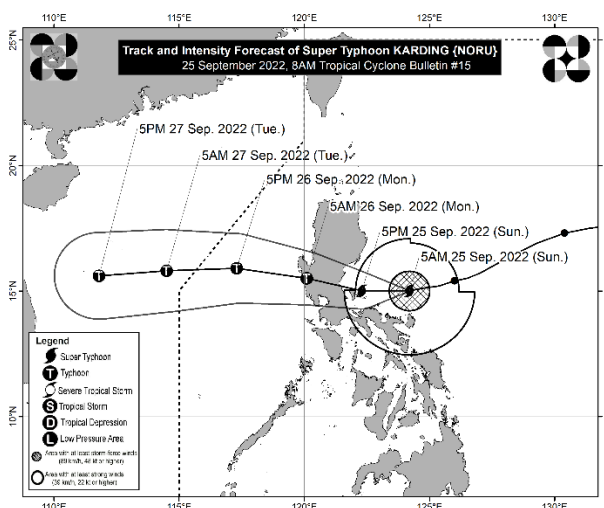

Maximum sustained winds of **185 km/h** near the center, gustiness of up to **230 km/h**, and central pressure of **925 hPa**

##### Present Movement

**Westward at 20 km/h**

##### Extent of Tropical Cyclone Winds

**Strong to typhoon-force winds** extend outwards up to **290 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
<b>12-Hour Forecast</b> 5:00 PM 25 September 2022	15.0	122.3	Over the coastal waters of Burdeos, Quezon	205	STY	W 15
<b>24-Hour Forecast</b> 5:00 AM 26 September 2022	15.5	120.1	In the vicinity of Masinloc, Zambales	175	TY	WNW 20
<b>36-Hour Forecast</b> 5:00 PM 26 September 2022	15.9	117.3	325 km West of Dagupan City, Pangasinan	155	TY	W 25
<b>48-Hour Forecast</b> 5:00 AM 27 September 2022	15.8	114.5	590 km West of Iba, Zambales (Outside the PAR)	155	TY	W 25
<b>60-Hour Forecast</b> 5:00 PM 27 September 2022	15.6	111.8	875 km West of Central Luzon (Outside the PAR)	165	TY	W 25

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
<b>2</b> Wind threat: <b>Gale-force</b> winds	<b>The southern portion of Isabela</b> (Dinapigue, San Guillermo, Echague, San Agustin, Jones), <b>Quirino, Nueva Vizcaya, Benguet, La Union, Pangasinan, Zambales, Bataan, Tarlac, the rest of Pampanga, the rest of Nueva Ecija, the rest of Aurora, the rest of Metro Manila, Cavite, Batangas, the rest of Laguna, the rest of Rizal, the central portions of Quezon</b> (Calauag, Perez, Alabat, Quezon, Tagkawayan, Guinayangan, Sampaloc, Lucban, City of Tayabas, Lucena City, Pagbilao, Padre Burgos, Atimonan, Agdangan, Unisan, Plaridel, Gumaca, Lopez, Pitogo, Dolores, Candelaria, Sariaya, Tiaong, San Antonio, Macalelon, General Luna, Catanauan, Buenavista), <b>the rest of Camarines Norte, the northern portion of Camarines Sur</b> (Del Gallego, Ragay, Lupi, Sipocot, Libmanan, Pamplona, Pasacao, San Fernando, Pili, Minalabac, Ocampo, Tigaon, Cabusao, Magarao, Gainza, Canaman, Camaligan, Milaor, Naga City, Bombon, Calabanga, Tinambac, Siruma, Goa, Lagonoy, San Jose, Garchitorena, Presentacion, Caramoan, Sagñay), and <b>Catanduanes</b>	-	-
Warning lead time: <b>24 hours</b> Potential impacts of winds: <b>Minor to moderate threat to life and property</b>			
<b>1</b> Wind threat: <b>Strong</b> winds	<b>The southern portion of Cagayan</b> (Tuao, Solana, Enrile, Tuguegarao City, Iguig, Peñablanca), <b>the rest of Isabela, the southern portion of Apayao</b> (Conner), <b>Kalinga, Abra, Mountain Province, Ifugao, the southern portion of Ilocos Norte</b> (Nueva Era, Badoc, Pinili, Banna, City of Batac, Currimao, Paoay, Marcos), <b>Ilocos Sur, the rest of Quezon, the northern portion of Occidental Mindoro</b> (Abra de Ilog, Paluan, Mamburao, Santa Cruz) <b>including Lubang Islands, the northern portion of Oriental Mindoro</b> (Puerto Galera, San Teodoro, Baco, City of Calapan, Naujan, Victoria, Pola, Socorro, Pinamalayan), <b>Marinduque, the rest of Camarines Sur, Albay, Sorsogon, Burias Island and Ticao Island</b>	-	-
Warning lead time: <b>36 hours</b> Potential impacts of winds: <b>Minimal to minor threat to life and property</b>			

## TROPICAL CYCLONE BULLETIN NO. 15

### Super Typhoon KARDING (NORU)

Issued at 8:00 AM, 25 September 2022

Valid for broadcast until the next bulletin at 11:00 AM today

#### HAZARDS AFFECTING LAND AREAS

##### Heavy Rainfall

- *This morning through early afternoon:* Moderate to heavy rains over Isabela, Polillo Islands, Catanduanes, Camarines Norte, Camarines Sur, and Isabela. Light to moderate with at times heavy rains over mainland Cagayan, Quirino, Nueva Vizcaya, Aurora, Quezon, Marinduque, Romblon, and the rest of Bicol Region.
- *This early afternoon through tomorrow early morning:* Heavy to intense with at times torrential rains over Metro Manila, Zambales, Bataan, Tarlac, Pampanga, Nueva Ecija, Bulacan, Aurora, Rizal, and the northern portion of Quezon including Polillo Islands. Moderate to heavy with at times intense rains over Isabela, Nueva Vizcaya, Quirino, Benguet, Ifugao, Mountain Province, Pangasinan, Cavite, Laguna, the central portion of Quezon, and Camarines Norte. Light to moderate with at times heavy rains over Mindoro Provinces, Marinduque, and the rest of CALABARZON and Bicol Region.
- *Tomorrow early morning through early afternoon:* Heavy to intense with at times torrential rains over Zambales, Bataan, Pampanga, and Bulacan. Moderate to heavy with at times intense rains Metro Manila, Pangasinan, Cavite, Occidental Mindoro, and the rest of Central Luzon. Light to moderate with at times heavy rains over Mountain Province, Ifugao, Benguet, Quirino, Nueva Vizcaya, Oriental Mindoro, and the rest of CALABARZON.
- Under these conditions, **scattered to widespread flooding and rain-induced landslides are expected**, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities with significant antecedent rainfall.
- Due to the Southwest Monsoon enhanced by KARDING, occasional to monsoon rains are also possible over Visayas and the rest of Southern Luzon, especially on their western sections. For more information, refer to the 24-Hour Public Weather Forecast issued at 4:00 AM today. Furthermore, the issuance of Weather Advisory for Southwest Monsoon is not ruled out.

##### Severe Winds

- **Wind Signal No. 5 will be the highest wind signal** that will be hoisted throughout the passage.
- During the passage of KARDING, areas under Wind Signal No. 4 will experience winds peaking at **typhoon-force** strength, while winds may reach **storm-force** in strength within any of the areas where Wind Signal No. 3 is hoisted. **Gale-force** conditions are likely any of the areas where Wind Signal no.2 is hoisted, while **strong winds (strong breeze to near gale strength)** will be experienced within any of the areas where Wind Signal No. 1 is currently in effect.

##### Coastal Inundation

There is a **high to very high risk of storm surge** in the low-lying and exposed coastal areas of northern Quezon including Polillo Islands and the central and southern portions of Aurora. In addition, a **moderate to high risk of storm surge** is also possible over Camarines Norte, Pangasinan, Zambales, Bulacan, the northern portion of Metro Manila, the southern portion of La Union, and the rest of Aurora and Quezon. The combined effects of storm surge and high waves breaking along the coast may cause **life-threatening and damaging inundation or flooding**.

## TROPICAL CYCLONE BULLETIN NO. 15

### Super Typhoon KARDING (NORU)

Issued at 8:00 AM, 25 September 2022

Valid for broadcast until the next bulletin at 11:00 AM today

#### HAZARDS AFFECTING COASTAL WATERS

- Under the influence of KARDING, a marine gale warning remains in effect over the eastern and western seaboard of Luzon. For more information, refer to **Gale Warning #3** issued at 5:00 AM.
- In the next 24 hours, KARDING and the enhanced Southwest Monsoon will also bring **moderate to rough seas** over the northern and western seaboard of Luzon that are not under any gale warning (1.5 to 3.5 m) and the western seaboard of Visayas (1.2 to 2.5 m). These conditions may be risky for those using small seacrafts. Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.

#### TRACK AND INTENSITY OUTLOOK

- Typhoon KARDING is forecast to track generally west southwestward or westward in the next 6 to 12 hours, then westward or northwestward for the remainder of the day. On the forecast track, KARDING will likely make landfall in the vicinity of the northern portion of Quezon or the southern portion of Aurora tonight. The possibility of an earlier (afternoon) landfall or close approach in the vicinity of Polillo Islands is not ruled out.
- For the remainder of this evening post-landfall through tomorrow early morning, KARDING will traverse the landmass of Central Luzon and emerge over the West Philippine Sea via the coastal waters of Zambales or Pangasinan. The typhoon will then continue tracking generally westward over the West Philippine Sea for the remainder of the forecast period.
- KARDING reached super typhoon category at 5:00 AM today after a period of explosive intensification of **90 km/h in 24 hours**. It is forecast to continue intensifying and may make landfall at or near a **peak intensity of 185-205 km/h**. Frictional effects during landfall and traverse of the Luzon landmass will weaken KARDING throughout the evening through tomorrow early morning, although it is highly likely that this tropical cyclone will remain a typhoon while crossing the landmass.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
